SKILLS & EXPERTISE

Web Design – Proficient in creating functional and minimalistic websites with a focus on typography, utilizing HTML, CSS, and minimal JavaScript.

UI/UX Design – Skilled in designing user-centric interfaces for seamless user experiences.

Accessibility – Committed to ensuring digital content is accessible to all users, adhering to accessibility standards and best practices.

Web Performance – Dedicated to testing and optimizing website performance, employing strategies for speed and efficiency.

On-site SEO – Experienced in implementing on-site SEO best practices for improved online visibility and user engagement.

Prototyping – Proficient in using Figma and XD for interactive design and user flow testing.

Graphic Design – Capable of creating visually engaging graphics and layouts in Photoshop, although priority is on functional design.

CMS – WordPress, WP Theme Development: Skilled in developing WordPress websites and themes for efficient and effective web solutions.

Collaboration – Effective, proactive communication and collaboration with cross-functional teams, ensuring a cohesive development process.

Problem Solving – Demonstrated ability to troubleshoot and solve technical challenges, optimizing website functionality.

Adaptability – Quick learner with the ability to adapt to new technologies and design trends.

Time Management – Strong organizational skills, capable of managing multiple projects and meeting tight deadlines.

EDUCATION

Designer (2013)

National Qualification Register of Hungary

INTRODUCTION

Detailed-oriented web designer **based in Hungary** with 10+ years of experience, specializing in authoring beautiful code and creating functional and minimal web designs. Proficient in HTML and CSS, with a knack for writing semantic, accessible and beautiful code. Skilled in UI/UX design, accessibility, and web performance. Proven ability to collaborate effectively, solve problems, and adapt to new challenges. Seeking a remote full-time position to contribute coding and design expertise to innovative projects.

WORK EXPERIENCE

Retalk Network – Lead Designer (2021–2024)

AutoSEO project

- Spearheaded the design efforts for AutoSEO, a WordPress plugin automating technical SEO tasks.
- Transformed the plugin into a comprehensive on-site SEO tool.
- Utilized Laravel for the website and WordPress for the plugin.

TwitterAudit project

- Lead the redesigning and rebuilding of TwitterAudit, a high-traffic Twitter auditing and statistics tool.
- Built a robust web application on the foundations of Laravel and Vue.js.

Retalk project

- Single-handedly conceptualized and developed Retalk, a non-woke forum targeting a specific demographic.
- Managed every aspect of the experience, from initial mockups to final code, using Laravel and Vue.js.

BestVPN / ProPrivacy – Senior Designer (2018–2021)

- Redesigned and rewrote the website, transitioning from WordPress to Laravel.
- Managed a team of junior designers and focused on continuous education.
- Worked fully remotely from this point on, demonstrating strong time management skills.

Buffered VPN – Lead Designer (2015–2018)

- Contributed to the design and redesign of the VPN software and company website.
- Adapted product design to the limitations of our Python framework.
- Worked in a remote and office-based collaborative environment.

Higher Click – Web Designer (2013–2014)

- Single-handedly designed and built on the company's WordPress website and built numerous WordPress-based websites.
- Gained expertise in on- and off-site SEO.

The Pulilab – Junior Web Developer (2012)

- Collaborated with a team of frontend developers on web interfaces for a Norway-based company.
- Learned the dynamics of working in a professional team environment.
